

# **Dent with Cowgill Parish Council Sub-Committee Authority Request**

## **Playing Field Committee**

### **Date**

### **Purpose of the Report**

**Date 13 June 2023**

To recommend to full council that we purchase goal post stands.

### **Recommendation**

To manufacture and install goal post stands, for the current goalpost to be stored.

### **Context**

When the new goalposts were purchased, it was always foreseen that they needed to be stored somewhere securely. The Playing field committee has now proposed a solution to this issue.

### **Alignment to Dent Parish Council Objectives**

This recommendation aligns with objective 2 – Promoting Tourism and the Dale

This recommendation aligns with objective 3 - Improve Health and Wellbeing and the Environment of the Dale.

### **Background**

Now the goalposts are in a fixed position, if they're not removed there will be damage to the playing field surface. If the goalpost cannot be removed and stored somewhere else, there will be an increased cost in pitch maintenance.

### **Financial Implications**

Approximately £650 for manufacture and installation

Although important for council to note, this will be paid from ringfenced monies, donated to the council from the Dentdale Show. So, there is no financial cost to the parish.

### **Options Considered**

1. Do nothing.
2. Instruct the football club to store against the wall (this isn't optimum as; paint will chip from the post and cannot be secured)
3. Manufacture and install goal post brackets.

**Policy and Resources Committee 13 June 2023**
